This edition of the Illustrated Picatrix  
is dedicated to  
N son of N  
and consecrated to the 7 Planets

## The Picatrix

### Contents

Translators' Introduction	IO
The Picatrix in Context	II
The Picatrix and the Necronomicon	I3
Picatrix in Practice	I5
A Note on the Text	I8
Warning and Disclaimer	I9

## Picatrix

Prologue	22
----------	----

## Book One

Chapter One	26
How you may know your degree in the universe	
Chapter Two	28
What magic is and what its properties are	
Chapter Three	3I
What the heavens are and what their substance is	
Chapter Four	32
The general theory and arrangement of the heavens for making magical images	
Chapter Five	40
Examples of the theory of images, and of those things needful for making magical images	
Chapter Six	52
In what degree everything exists in the universe, and how it is known that man is a lesser world and corresponds to the greater world	
Chapter Seven	58
In what degree everything in the universe exists, and many other profound things, hidden by the wise, that we intend to reveal in this book of ours	

# Contents

## Book Two

7

Chapter One	61
How it is possible to learn this science	
Chapter Two	63
The images of heaven and their secrets	
Chapter Three	66
All the works of the planets, the Sun, and the Moon	
Chapter Four	76
The motion of the eighth sphere and the fixed stars	
Chapter Five	77
The division of this science among nations, and which part of it each nation possesses	
Chapter Six	83
The virtues of images, and by what means they may be had, and how images may receive the powers of the planets, and how works are done by images, and this is the foundation of the science of magic and images	
Chapter Seven	91
How to work dialectically in the science of magical images, and what part this ought to have in this science	
Chapter Eight	95
The order of natural things, and how they may enter into this science	
Chapter Nine	97
Examples of the figures and forms of images that call down the assistance of the planets	
Chapter Ten	99
The stones proper to each planet and the formation of figures	
Chapter Eleven	110
The images of the faces of the signs and their effects	
Chapter Twelve	115
The figures and degrees of the signs and their effects according to the opinion of the Hindus, and how they proceed in the contemplations of this science, and in what manner the virtues of superior bodies are attracted according to the opinions of the same, with notable secrets	

## The Picatrix

### Book Three

Chapter One	131
<i>The parts of the planets that exist in plants, animals and metals</i>	
Chapter Two	135
<i>Of the parts of the signs in the aforesaid three existences, that is, plants, animals, and minerals</i>	
Chapter Three	137
<i>Of the figures, colors, garments, and incenses of the planets, as well as the colors of the faces of the signs</i>	
Chapter Four	140
<i>Why the secrets of this science may not be understood except a little at a time</i>	
Chapter Five	141
<i>In which is demonstrated the virtue proper to animals and noteworthy things necessary in this science, and how the spirits of the planets are attracted by figures and suffumigations</i>	
Chapter Six	147
<i>The magistry of drawing planetary spirits with natural things, and what a magical image is and how it can have this power</i>	
Chapter Seven	151
<i>Attracting the virtues of the planets, and how we may speak with them, and how their influences are divided among planets, figures, sacrifices, prayers, suffumigations, and propositions; and the state of the heavens necessary to each planet</i>	
Chapter Eight	181
<i>The way of prayer with which the Nabateans used to pray to the Sun and Saturn, and how they would speak to them and their spirits and draw forth their influences</i>	
Chapter Nine	184
<i>How to attract the powers of each planet and the powers of their spirits, naming them according to their parts, and how to accomplish this by speaking their names</i>	
Chapter Ten	190
<i>A demonstration of the confections of planetary spirits, and preventing dangers from ceremonies and effects, and of the wonders of magic, and of the food, suffumigations, unguents, and odors that one who invokes planetary spirits ought to use...</i>	
Chapter Eleven	201
<i>The effects of magical images in diverse things, as well as in alterations of sight,</i>	

*so that things are seen other than as they are; and causing sleep and waking, and making poisons and their remedies*

Chapter Twelve 214

*Rules Necessary in this Science*

## Book Four

Chapter One 223

*By what virtue and force spirit proceeds, and what are the properties of spirits, bodies, sense, intellect, and soul, as well as the differences between them*

Chapter Two 228

*What vigor the spirit of the Moon brings to this inferior world, and what ought to be done with each of the seven planets*

Chapter Three 240

*What the Chaldeans held to be the profundities and secrets of this science, and what they said about it*

Chapter Four 241

*The images and reasonings that greatly further this science*

Chapter Five 250

*The ten sciences that are necessary to this art, and how this science is helped by them, and what is the foundation of the science of magic*

Chapter Six 253

*How the suffumigations of the stars ought to be made, and certain compositions necessary to this science*

Chapter Seven 258

*The things of the magical art found in the book The Chaldean Agriculture which Abudaer Abemiexie translated from the Chaldean language into Arabic*

Chapter Eight 271

*The virtues of other things which Nature does by her own properties*

Chapter Nine 275

*Images whose virtues perform marvels, that were found in a book that was discovered in the church of Corelib and the book of Queen Folopedre...*

Glossary 312

Bibliography 315

# Translators' Introduction

In an age when such terms as “classic” are the everyday fare of advertising copywriters, it is difficult to know how to introduce a genuine classic of occult literature, but the book you hold in your hands is impossible to describe in any other way. Originally written sometime in the ninth century by an anonymous Arab wizard in North Africa or Spain, and credited in the fashion of the time to the notable Sufi and scholar al-Majriti, it was originally titled *Ghayat al-Hakim*, “The Goal of the Sage.”

Like so many works of Arabic occultism, it eventually found its way to Europe. It was translated into Spanish and Latin at the court of Alfonso the Wise, King of Castile, in the year 1256, and received the new title of *Picatrix*. Scholars to this day are uncertain what the name means. The explanation that seems most plausible is that it is the Latin version of an Arabic transliteration—perhaps Buqratis—of a Greek original; it is tempting, though unprovable, to suggest that the name may have been Harpocrates, the Hellenistic Egyptian god of silence and mystery. The Latin text makes the mystery more intriguing by claiming that *Picatrix* was the name of the book’s author.

The influence of *Picatrix* on the magical traditions of the western world was immense. Most of the significant scholarly occultists of the late Middle Ages appear to have drawn on it, or on material borrowed from it by other authors. Marsilio Ficino, whose translation of the *Corpus Hermeticum* launched the Renaissance occult revival, borrowed heavily from it for his pathbreaking *Three Books on Life*; Heinrich Cornelius Agrippa’s *Three Books of Occult Philosophy* was even more extensively influenced by *Picatrix*, and some of the leading figures in the English occult renaissance of the sixteenth and seventeenth centuries—Simon Forman, Elias Ashmole and William Lilly—used it as a primary source for their own magical work. With the end of the Renaissance and the rise of the scientific materialism that dominated seventeenth-century culture, however, *Picatrix* dropped from sight, and the revival of magic in the western world that began in the middle of the 19th century passed it by. Even today it remains the least known of the major works of western occultism.
